

Tools to support Good Agricultural Practise in the Common agricultural policy (CAP)

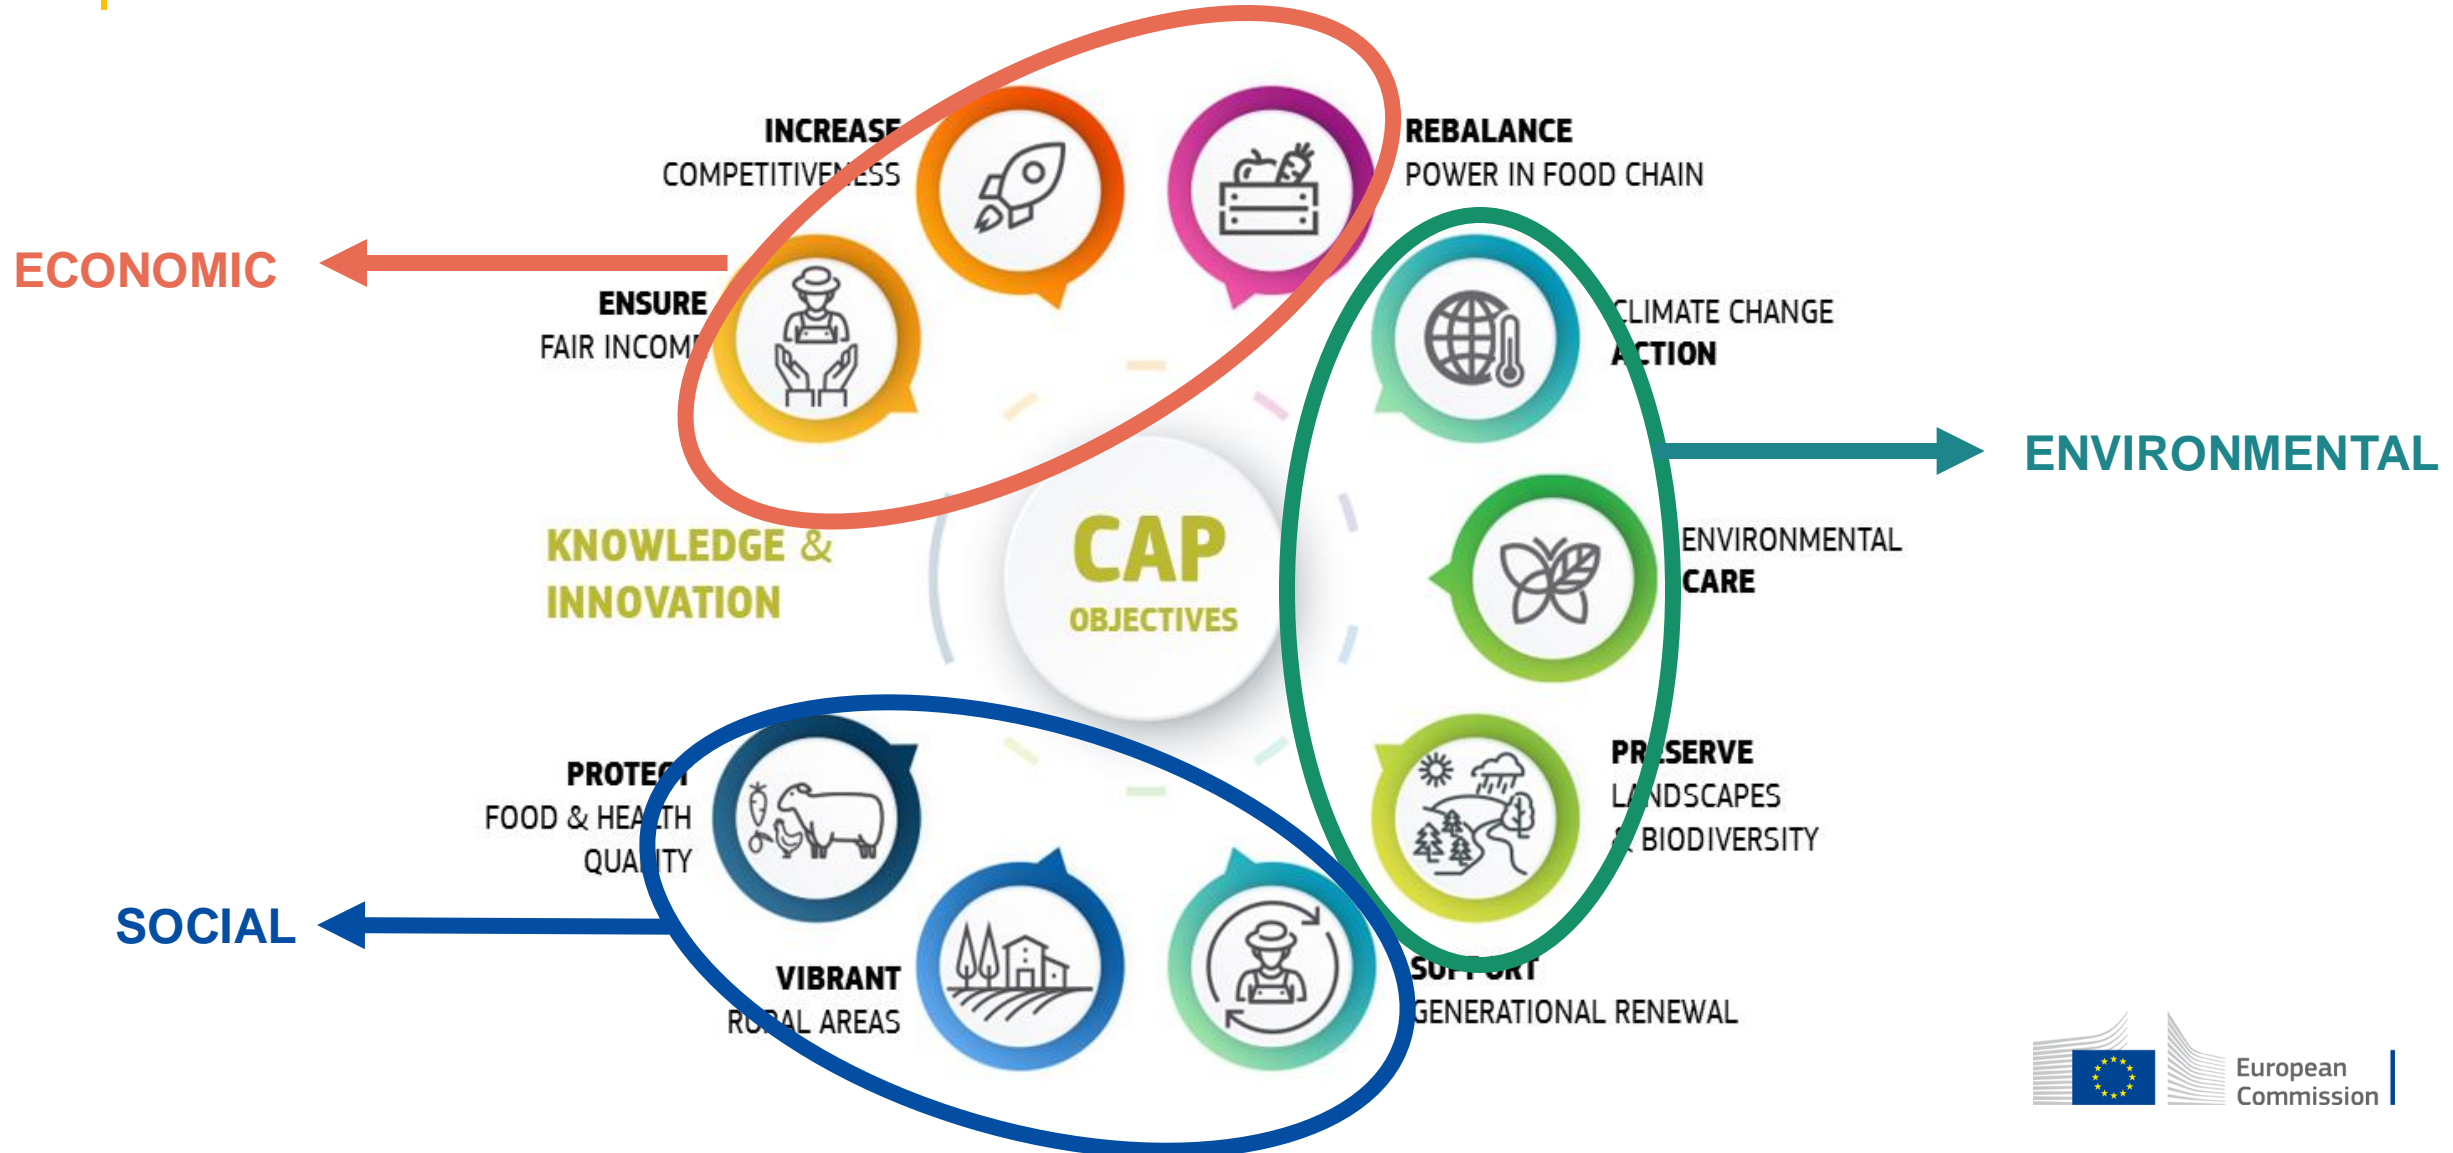

Aquaculture Advisory Council

WORKING GROUP 2 «Shellfish» Meeting

04/02/2025

Clément JAUBERTIE B2

CAP Objectives & sustainability dimensions

CAP Budget

- The CAP is financed through two funds as part of the EU budget:
- the [European agricultural guarantee fund](#) (EAGF) provides direct support and funds market measures (EUR billion 198)
- the [European agricultural fund for rural development](#) (EAFRD) finances rural development (EUR billion 66)

Planned financial allocations under the CAP Strategic Plans 2023-27
(in EUR billion)

The green architecture

Targets for voluntary efforts (Result indicators - % of UAA, % of LU, No of ha, MW, persons)

Voluntary

Mandatory

Environmental and climate sustainability

- 32% of total public CAP funding dedicated to deliver environment/climate benefit and to encourage practices that go beyond the conditionality

Eco-schemes

- Voluntary tools to be offered by Member States to farmers
- **Min. 25% of direct payments budget**, coupled with a “rebate system”
- 2 year “learning period” (with a “floor system”)
- Annual or multi-annual commitments
- Support many types of voluntary action going beyond conditionality and other relevant obligations – e.g. practices related to better nutrient management, agro-ecology and carbon farming

Support for rural development

- **A simplified menu:** current 20 rural development “measures” and 64 “sub-measures” will be streamlined into eight broad “types of intervention”
- **Rural development** support will continue to cover environment- and climate-friendly land management animal welfare, compensation for disadvantages, investments, knowledge-building, innovation and co-operation.
- **Minimum mandatory expenditure for environment and climate:** 35% of the EAFRD with support for ANC weighted at 50%

Thank you
