Welcome to the Grand Coalition Portal

Hosted by the Shellfish Association of Great Britain (SAGB, this portal facilitates the **exchange of data and ideas across the European shellfish industry**. By sharing information and insights, we aim to enhance standards and boost the sustainability of mollusc production across Europe.

Join us in this collaborative effort to learn and grow together.

Webpage

- Hosted by SAGB
- Surrounding the topics of water quality, animal health, spatial planning and more across Europe
- Funded by the Fishmongers' Company

The screenshot shows the homepage of the Grand Coalition website. At the top is a navigation menu with links for Home, About Us, Committees, Conference, Resources, SAGB Blog, Members, and a red button for CRABPortal. Below the menu is a blue banner with the text "Grand Coalition". The main content area features a welcome message: "Welcome Grand Coalition members, hosted by SAGB, this portal is an opportunity to share data, information and ideas surrounding the topics of water quality across Europe in regards to the shellfish producing industry." To the right of this text is a photograph of several oysters. Below the text is a paragraph explaining the project: "The Grand Coalition is a project funded by the Fishmongers' Company. It aims to use information sharing between mollusc producers and interested parties across Europe on water quality and related issues. We will use this portal as a point of access for all information relating to water quality issues and their effect on mollusc production with the expectation that we can all learn from each other. We will all add details of projects undertaken in our countries which will enable these to be utilised throughout Europe and make more efficient use of any data generated." At the bottom left of the page is the logo for the Shellfish Association of Great Britain Grand Coalition, which features a lobster and shells within a circular border.

Documents

- Documents are categorised in an easy to search manner
 - Aquaculture
 - Aquatic Animal Health
 - Classification
 - Contaminants
 - Ecosystem Health
 - EIA/Habitat Regulation
 - Food Security
 - Governance
 - Invasive Species
 - Liability Directive
 - Marine Planning/ Framework Directive
 - Markets
 - Protected Areas
 - Published Papers
 - Water Quality
 - Other

The screenshot displays the website's search interface. At the top, there is a search bar with a magnifying glass icon. Below it, a navigation menu includes buttons for 'All', 'Aquatic Animal Health', 'Eco System Health', 'Food Security', 'Marine Planning/Framework Directive', and 'Other'. The main content area features six document cards, each with a title, a brief description, a 'Read More' button, and a date:

Alternative Markets for Farmed Scottish Shellfish and Associated Requirements

This report considers prospects for existing and alternative products and services for farmed Scottish shellfish in three areas:

- (a) existing UK retail and foodservice sectors
- (b) markets for nutra / pharma / marine biotech products
- (c) markets for carbon off-setting or other green investment opportunities that might be serviced by bivalve shellfish farming in Scotland
